

Corporation of the City of Roseland

May 9 2012

Dear Rosslanders:

Subject: NOTICE OF CONSTRUCTION

City of Roseland Contract 2012-01: Columbia Avenue Infrastructure Improvements

As part of our capital infrastructure renewal program, the City of Roseland will be undertaking infrastructure improvements of the following streets in the downtown core:

- Columbia Avenue from St. Paul Street to Spokane Street
- Washington Street from Columbia Avenue to 1st Ave

The purpose of this letter is to notify you that construction works will be commencing within the next few days, weather permitting.

The contractor has scheduled the proposed works during May 2012 to October 31, 2012. The prime contractor performing these works will be COPCAN Contracting Ltd.

We ask that for the duration of the construction, you do not park your vehicles in the designated work zones and obey the posted signs. Every effort will be made to carry out the work with as little inconvenience as possible; however, vehicular access through the work zone may be temporarily interrupted by differing construction activities and phases.

A local businesses and residential access management plan, staging areas and parking restrictions will be in effect. We ask for your cooperation and patience in following the directions of traffic control personnel.

The Contract Administrator for this project is ISL Engineering and Land Services Ltd. Should you require further information regarding this construction project, please contact their field supervisor Dave Swift at 250.512.1641 or visit our project website at <http://www.rossland.ca/columbiawashington-construction-updates>.

May we take this opportunity to thank you in advance for your cooperation during the construction period.

Respectfully,

Mayor Greg Granstrom
