File: 606-607/1.1

**Dear Residents of Rossland,**

**Exploration Drilling within the City of Rossland Boundary**

Over the coming weeks, Currie Rose Resources will undertake a limited exploratory drilling program at a few locations north and north-east of the Rossland townsite.

As the operation is small, involving no more than 6 people, there will be no negative impacts on traffic or other businesses in town. Noise will be kept to a minimum.

The drilling is designed to increase our geological understanding of the historic Rossland mineral field that produced millions of ounces of gold and silver between 1894 and 1941.

If you have any questions regarding the above program, please contact the undersigned by email at: [info@currierose.com](mailto:info@currierose.com)

Yours sincerely,

Michael Griffiths  
President & CEO  
Currie Rose Resources Inc.
