Snowshoe & Snow Science Tour

Description: Join Kootenay Snowshoe and Fat bike tours for a snow discovery tour. Great for all levels - complete beginner through to expert. Our guide will take you on a loop around the museum grounds sharing local history and snowshoe technique tips and tricks. We will stop along the way to measure the snow depth, check out a snowflake under a microscope and answer questions about the snowpack and what is considered when looking at the Avalanche danger for heading into the backcountry. We will finish up at the Museum with warm up tea and coffee. This 45 min tour is perfect for all ages, levels and experience. Limited snowshoes available for use - first come first served.

Location: Rossland Museum & Discovery Centre
