## INDEPENDENT AUDITORS' REPORT

---

To the Mayor and Council  
The Corporation of the City of Rossland

We have audited the accompanying consolidated financial statements of The Corporation of the City of Rossland, which comprise the consolidated statement of financial position as at December 31, 2016, and the consolidated statement of operations, consolidated statement of changes in net debt and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**THE CORPORATION OF THE CITY OF ROSSLAND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
For the Year Ended December 31, 2016

---

**1. General**

The Corporation of the City of Rossland was incorporated as a municipality in 1898. The principal activities of the City include the provision of local government services to the residents of the incorporated area. These services include administrative, protective, transportation, planning, tourism, recreation, culture, water and sewer services.

**2. Significant Accounting Policies**

The following is a summary of the significant accounting policies of The Corporation of the City of Rossland.

**a. Basis of Presentation**

It is the City's policy to follow the accounting principles generally accepted for municipalities in the Province of British Columbia, and to apply such principles consistently. The consolidated financial statements include the accounts of all funds for the City. All interfund transfers have been eliminated. They have been prepared using guidelines issued by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada. In addition, financial statements for each fund on a segregated basis have been presented under "Other Financial Information".

**b. Principles of Consolidation**

The resources and operations of the City are segregated into various funds for accounting and financial reporting purposes, each being treated as a separate entity with responsibility for the stewardship of the assets allocated to it. The City has the following funds:

Operating funds - these funds are used to report the operating activities of the City, including general operations and the water and sewer utilities.

Capital funds - these funds are used to record the acquisition and financing of the capital assets. Capital funds have been established for general operations and the water and sewer utilities.

Reserve funds - these funds have been established to hold funds for specific future requirements. The use of these funds is governed by the *Community Charter* and Municipal resolutions and by-laws.

The consolidated financial statements include the amounts of all the funds of the City. Inter-fund transactions and balances have been eliminated.

**c. Financial Instruments**

The City's financial instruments consist of cash, short-term investments, accounts and grants receivable, accounts payable and long-term debt. It is management's opinion that the City is not exposed to significant interest, currency, or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values.

**THE CORPORATION OF THE CITY OF ROSSLAND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
For the Year Ended December 31, 2016

---

**2. Significant Accounting Policies (continued)**

**d. Tangible Capital Assets**

Tangible capital assets, comprised of capital assets and capital work-in-progress, are recorded at cost less accumulated amortization and are classified according to their functional use. Amortization is recorded on a straight-line basis over the estimated useful life of the asset commencing the year the asset is put in to service. Donated tangible capital assets are reported at fair value at the time of donation. Estimated useful lives are as follows:

Land Improvements	15 to 35 years
Buildings and building components	15 to 75 years
Machinery and equipment	7 - 60 years
Furniture and equipment	7 - 15 years
Information technology	3 - 5 years
Vehicles and mobile equipment	5 - 25 years
Infrastructure	15 - 100 years

**e. Revenue Recognition**

Revenue is recognized using the accrual method of accounting. Taxes and utility fees are recognized in the fiscal year to which they relate. Service revenues, grants and development cost charges are recognized in the period in which the City's service delivery obligations are discharged.

**f. Budget Figures**

The budget figures are based on the Five-Year Financial Plan for the year 2016 per bylaw 2613 adopted May 09, 2016.

**g. Use of Estimates**

The preparation of financial statements in accordance with Canadian public sector accounting standards, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Significant areas requiring estimates include the useful life of tangible capital assets for amortization, the determination of accrued employee benefits and the provision for contingencies. Actual results could differ from management's best estimates as additional information becomes available in the future.

Principal and interest payments will begin in 2019 at reasonable commercial rates negotiated on January 1, 2019.

**5. MFA DEPOSITS**

The City issues its debt instruments through the Municipal Finance Authority. As a condition of these borrowings, a portion of the debenture proceeds are withheld by the Municipal Finance Authority as a debt reserve fund. The City also executes demand notes in connection with each debenture whereby the City may be required to loan certain amounts to the Municipal Finance Authority. The cash deposits are recorded as financial assets while the demand notes amounts are not included in the City's financial statements. **14. PENSION LIABILITY**

The employer and its employees contribute to the Municipal Pension Plan (the plan), a jointly trustee pension plan. The board of trustees, representing plan members and employers, is responsible for administering the the plan, including investment of the assets and administration of benefits. The plan is a multi-employer defined benefit pension plan. Basic pension benefits provided are based on a formula. As at December 31, 2015, the plan has about 189,000 active members and approximately 85,000 retired members. Active members include approximately 37,000 contributors from local government.

Every three years, an actuarial valuation is performed to assess the financial position of the plan and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plan. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plan. This rate is then adjusted to the extent there is amortization of any funding deficit.

The most recent valuation for the Municipal Pension Plan as at December 31, 2015 indicated a \$2,224 million funding surplus for basic pension benefits on a going concern basis.

The City of Rossland paid \$162,559 (2015 - \$159,709) for employer contributions while employees contributed \$150,567 (2015 - \$150,382).

The next valuation will be as at December 31, 2018, with results available in 2019.

Employers participating in the plan record thir pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the plan records accrued liabilities and accrued assets for the plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the plan.

**17. CONTINGENT LIABILITIES**

**Regional District Debt**

The City, as a member of the Regional District of Kootenay Boundary, is jointly and severally liable for the future capital liabilities of the Regional District. The loan agreements with the Municipal Finance Authority provide that if the Authority does not have sufficient funds to meet its payments and obligations, it shall make payments from the debt reserve fund which is in turn established by a similar debt reserve fund of the City and all other borrowing participants. If the debt reserve fund is deficient, the Authority's obligations become a liability of the Regional District, and may become a liability of the participating municipalities.

**Constructions and Other Contingencies**

In the normal course of a year, the City may be faced with claims for damages of a diverse nature. Potential claims identified include a claim by the contractor of the Ophir Creek Reservoir project relating to the construction of the project, a claim related to strata construction deficiencies as well as claims made by two former employees. The City is conducting a review of these claims and as at the year end, no estimate can be made of the likely outcome and no accrual has been made for these potential claims.

Certain prior period figures have been reclassified to comply with the presentation adopted in the current year.
